

Community Leadership Advancement Program (C.L.A.P.) 2023

Who we are?

This program is co-organized by the following registered non-profit organizations founded and operated by Canadians in BC:

- Civic Education Society
- Novasky Immigrant Services Society

What we do?

Civic Education Society was founded in 1991. The mission of the society is to promote Canadians to actively engage, volunteer and participate in public policy decisions; and to exercise their voting rights.

Novasky Immigrant Services Society is a newly founded volunteer-run organization aiming at leveraging public and donation resources to put Canadian values into practice by providing settlement, language training and social services to new immigrants and refugees.

Both organizations found their values in common when it comes to promoting Canadian value amongst new immigrants and engaging them to contribute their talents through community leadership.

Program Objective

We believe that every Canadian community leader could be described uniquely by a combination of four main skills:

- Strong understanding of Canadian Value
- Listening, Influencing & Coaching skills
- Leadership skills and Ethics
- Community Engagement skills

The objective of this program is to provide a platform for potential leaders to enrich their community leadership skills and to share their passion on Canadian values , such that they could contribute to their communities after the program.
